

Motorola Moto 360 Rear Cover Replacement

This guide covers removing the rear cover of the Moto 360.

Written By: Cole Twitchell

INTRODUCTION

This panel should be removed to get to all of the watch's insides. It is extremely fragile, so use caution when removing it.

TOOLS:

- [iOpener Kit](#) (1)
-

Step 1 — Rear Cover

- Set the watch face down on a flat surface.
- Place the heated [iOpener](#) on the face of the rear cover to loosen the adhesive underneath.

Step 2

- Gently slide the blue opening pick between the rear cover and the metal casing.
 - ⚠ The rear cover is extremely fragile. Be very delicate when using the opening pick.
- Work your way entirely around the rear cover.
 - ⓘ It may take several attempts of reheating the adhesive to get the rear cover loose enough to pull off.

Step 3

- Once the adhesive has been successfully loosened, gently pull the rear cover off.

To reassemble your device, follow these instructions in reverse order.
